- 4.16.1 The amount of cash entering and being handled on the premises should be kept to a minimum and monitored by the Business Manager. Cash is kept in a safe and should be banked on a regular basis, as a minimum either weekly or when a certain amount has accumulated. Recommendations from the Wandsworth Finance Handbook have been incorporated into our procedures.

- 4.19.1 There is no known asbestos in the buildings.

4.20 Hirers, contractors and others

- 4.20.1 When the premises are used for purposes not under the direction of the Headteacher then the principal person in charge of the activities will ensure that measures are taken to ensure the health and safety of those taking part in that activity. These measures must be of an equal or better provision to those stated

within this Health and Safety Policy. When the activity is a school sponsored event the organiser, even if an employee, will be treated as a hirer and will comply with the requirements of this Policy.

4.20.2 When the premises are hired to persons outside the employment of the Governing Body it is a condition that all such hirers, contractors, and others using the school facilities or premises, are familiar with the requirements of this Policy. They will comply with all safety directives of the Governing Body and will not, without the prior consent of the Governing Body:

- introduce equipment for use on the school premises;
- alter fixed installations;
- remove fire and safety notices or equipment;
- take any action that may create hazards for persons using the premises or the staff or pupils of the school.

4.20.3 Immediately prior to use the Premises Assistant or other nominated person should meet and greet the user, ensure welfare facilities and emergency procedures are understood and ask if they would like any alterations made. This would include any alterations to the environment (e.g. alterations to the heating, ventilation including opening/closing of windows etc.), manual handling tasks (e.g. rearranging classroom furniture etc.) and any other task which may pose a risk to the user. These alterations should be carried out by the Premises Assistant and it should be made clear to the user that if any further changes are required during the hire they must summon the Premises Assistant. As proof of due diligence the arrangements should be signed off by the user.

4.20.4 All contractors working on the site are required to ensure safe working practices by their employees and must pay due regard to the safety of all persons using the premises. In instances where, in the opinion of the Headteacher or Deputy Headteacher, a dangerous situation or hazardous condition arises that a contractor fails to eliminate or make safe, the Headteacher or Deputy Headteacher must take such actions as are necessary to prevent persons in his/her care from risk of injury. In extreme circumstances this may be by instructing the contractor to cease work until the condition is remedied. The Council Health and Safety Team may be contacted for advice and will attend where appropriate.

4.20.5 Where health and safety concerns cannot be resolved locally staff may address these through either the Council Health and Safety Joint Consultative Committee (JCC) or the Children's Services JCC. Contact should be made with the Staff Side Secretary who will introduce the matter as an item of business at the next meeting. The current Staff Side Secretary is Phillip Bradley and he acts as the focal point for all Unions recognised by the Council and also represents staff not in a Trade Union.

4.20.6 Where Safety Representatives have been locally appointed by recognised Trade Unions, the Governing Body, through the Headteacher will make arrangements

for the establishment of a local safety committee where two representatives request this.

4.21 Emergency Planning

- 4.21.1 The Headteacher will ensure that a suitable and satisfactory Emergency Plan is prepared to cover all foreseeable situations which may place staff or pupils at risk. The Plan will be agreed by the Governing Body and regularly reviewed.
- 4.21.2 Procedures to deal with fire, bomb, gas leaks, electricity supply failure and natural disasters, for example, flooding should be included in the Plan.
- 4.21.3 Evacuation points need to be established as far from the building as possible and consideration must be given to an off-site assembly point in the event of the school not being immediately re-accessible following an emergency evacuation, for example in the case of major fire damage. This will provide shelter whilst parents are contacted to collect children.

4.22 Monitoring

- 4.22.1 The Policy is put into practice and monitored on a daily basis and the results of any monitoring carried out will be reported to the Governors. Termly Health & Safety monitoring inspections will be carried out, by means of a walk around by the Headteacher or other nominated person, Premises Assistant, Union representative and if possible a member of the Governing Body.
- 4.22.2 A report will be drafted and actions allocated with deadlines. Any items not rectified by the next inspection will be carried forward, items rectified will remain on the report for everyone to note.

4.23 Codes of safe working practice

- 4.23.1 This Policy will be supplemented by codes of safe working practice. These codes will be followed by all staff and will assist in the application of this Policy.

- work at height

5.6 Manual Handling

5.6.1 Movement of heavy materials and equipment should only be undertaken by trained staff and, wherever possible, should be undertaken using some mechanical assistance e.g. a trolley. Procedures should be developed and recorded for the movement of items that frequently require such movement:

5.7 Work at height

5.7.1 The Work at Height Regulations 2005 extends to work at any height where there is a risk of a fall liable to cause personal injury. The mounting of displays and reaching for items from a high shelf are thus covered. Staff must ensure that:

- Only the correct equipment is used to work at height, e.g. step ladders. The use of chairs, desks etc to gain height is expressly forbidden. Staff must not stand or kneel on desks to open or close windows.
- Step ladders must be placed at right angles to the task to be carried out and must be in a place of safety. If on a circulation route work must not be carried out if pupils are passing by.
- Step ladders must be fully open and locked into position and the top step is not to be used unless the supports extend higher. They should only be used on a firm, level surface.
- Step ladders must be examined prior to use to ensure that they are safe to use. If there is any doubt the step ladders are not to be used. Step ladders must be inspected by the Site Manager on a 6 monthly basis. Step ladders are to be marked with a unique identifier and a record kept of inspections.

5.8 Staff training and information

- 5.8.1 It is expected that the Headteacher will act in a focal point role and as such obtain such information as is required to successfully discharge the requirements of this policy. Information and training should be available to all staff, in particular those with specific duties which involve a higher than normal risk e.g. the Site Manager.
- 5.8.2 Where information and/or advice is not locally available the Headteacher should seek such information from the Council Health and Safety Team.

5.9 Staff and workplace safety

- 5.9.1 In order that the school can be maintained in a safe condition it is essential that all staff are fully aware of their responsibilities under health and safety legislation. In particular the following should be borne in mind:
- staff should know and apply any special safety measures and arrangements that exist in their working environment e.g. in use of ICT equipment, etc.
 - Staff should observe standards of dress consistent with their duties e.g. maintaining hygiene when teaching cooking by wearing apron and tying back hair
 - Staff should exercise good standards of hygiene and housekeeping
 - Staff should know and be able to apply the emergency procedures which relate to evacuation, e.g. in a fire, and to first aid
 - Staff must use and not interfere with any measures provided to ensure their continued health and safety e.g. staff should not remove protective covers on powered plant or electrical equipment
 - Staff must co-operate with each other, teaching, non-teaching and support as well as contractors (cleaners, school meals service, etc.) in promoting improved safety measures
 - Staff must report any perceived health and safety failings and any defective equipment to the Head teacher immediately such defect is discovered.
